SAY TO THE 80's: NEWARK CAN BE REDEEMED BY THE PRACTICE OF JUSTICE

Over a decade ago national and New Jersey commissions on urban distress sounded this note:

- * It is time to turn with all the purpose at our command to the major unfinished business of this nation.
- * Realization of common opportunities for all within a single society will require action--compassionate, massive and sustained.
- * The question is whether we have the will to act.

We still care! Newark has made great strides! But no one can relent now!

We pledge anew to struggle for:

- * A socially useful future for today's urban poor in a revitalized Newark.
- * A strong and affirmative partnership for a new Newark among the public, private and community sectors.
- * The advancement of the neighborhoods in the rebuilding of the city.
- * The enlargement of private investment and employment opportunity.

By coming together on June 24th, we join the celebration of the re-birth of our community, and collectively, begin again, to root out the causes of poverty and racism.
